Finish Cut Size is 48" $\times 96^{\prime \prime}$ ( black border )

The Safe area is
$47.75^{\prime \prime} \times 95.75^{\prime \prime}$ ( pink border )
Keep all important information inside this pink border.

Bleed size is $48.25^{\prime \prime} \times 96.25^{\prime \prime}$ ( blue border) When your file is complete this is the size it should be.

Un-important image(s) and/or colour(s) bleed past the pink border and the black border to the blue border for optimal finish cuts.
